Winter Salad Greens include arugula, bok choy, chicories, lettuce, mache, mustards and spinach. They grow slowly due to low light. Mulch well, and harvest as baby greens or braising mix. Certain vegetables, like kale and Brussels sprouts, thrive in winter temperatures and actually become sweeter after a frost.

12 Vegetables You Can Grow in Winter - BC Farms & Food

In doing so, you will be saved from dealing with unwanted weeds, pests and insects. Also be mindful and choose a well-draining soil mixture for your favourite vegetable to grow in winter and indoor plants. For your indoor winter garden, you may also consider Hydroponic, or growing plants without soil. In hydroponic gardening, the nutrients are put directly to the plant so it promotes faster growth and plants are less likely to have diseases.
