Economic Science Fictions is an immensely valuable intervention into the critical debates around science fiction, politics and economics; a consistently stimulating and surprising collection of essays that not only demonstrates how useful it is to think of the genre from an economically informed perspective but also persuasively argues that economists ought to be paying attention to the speculative possibilities of the best science fiction. Every essay here is good, and from each one I ...

Economic Science Fictions | The MIT Press

Goldsmiths Press / PERC Papers PERC seeks to refresh political economy, in the original sense of the term, as a pluralist and critical approach to the study of capitalism. In doing so it challenges the sense of economics as a discipline, separate from the other social sciences, aiming instead to combine economic knowledge with various other disciplinary approaches.

Schady and Rosero had a paper on cash transfers there in 2008 that has 122 citations. Hanushek and Woessman had an education paper there in 2011 that has 38 citations. These non-representative examples are intended to demonstrate only that there is a right tail, so if you have a paper that is of interest to the broader research community, it can still get cited if it's in Economics Letters.

10 journals for publishing a short economics paper

Economics and science fiction have various overlaps. Science fiction is a genre that has long toyed with alternative economic institutions, imagining different types of production, property or money, and seeing where such changes might lead. Economics, as Jens Beckert's recent work has emphasised, involves various 'fictional expectations' in the form of risk models, future income streams ...

In Economic Science Fictions, editor William Davies has deliberately merged the two worlds, asking how we might harness the power From the libertarian economics of Ayn Rand to Aldous Huxley's consumerist dystopias, economics and science fiction have often orbited each other.

Economic Science Fictions by William Davies

The following is a list of people who are considered a "father" or "mother" (or "founding father" or "founding mother") of a scientific field. Such people are generally regarded to have made the first significant contributions to and/or delineation of that field; they may also be seen as "a" rather than "the" father or mother of the field. Debate over who merits the title can be perennial.
