It took me hours to realise that it is http in the documentation but my actual server is https. I hope I am the only stupid one here, but wanted to note it. 4. About the NTLM login: The user is prohibited from doing anything without a login for NPrinting and NTLM is the only login mechanism supported via the API (for now).

NPrinting API for Noobs — How to trigger a task with the ...
Creating Mashups in QlikView is extremely simple but I am very often surprised that QlikView's ability to integrate QlikView documents and objects into other web application is not used very often, sometimes it is not even known that this can be achieved easily. Maybe one reason for that is that documentation and examples are very rare. That's why I have created a very detailed documentation +...
