The secret of a super memory is about to be unfolded to you. Like so many other things, it is about organisation, planning and a little effort. Memory is the primary and fundamental power without which there could be no other intellectual operation - Samuel Johnson

The Secret of a Super Memory

Hyperthymesia is a condition that leads people to be able to remember an abnormally large number of their life experiences in vivid detail. American neurobiologists Elizabeth Parker, Larry Cahill, and James McGaugh identified two defining characteristics of hyperthymesia: spending an excessive amount of time thinking about one's past, and displaying an extraordinary ability to recall specific events from one's past. The word "hyperthymesia" derives from Ancient Greek: hyper- and thymesis.

Hyperthymesia - Wikipedia
